## boho chic

Flowers to wear are de rigueur for proms, and the more distinctive and personalized the better. This bohemian-influenced headpiece provides something creative for those who want more than a traditional corsage. Plus, flower crowns are all the rage. Simply glue flowers and foliage onto a floral hair comb, and tuck the comb into the hair where the ribbon headband is tied. A coordinating boutonniere will accessorize a date appropriately.

**MATERIALS:** *Astroemerias*, 'Matsumoto' China asters, lavender and *Gypsophila* from suppliers of your choice; Oasis Floral Adhesive and Oasis Florist Wire from **Smithers-Oasis North America**; Ivory Daisy Cotton Floral Lace Trim Ribbon from **Harvest Import**; Lady Fair Hair Essentials Floral Hair Comb from **The National Ribbon Company**.

## HOW TO

Wrap desired ribbon around a floral headband, then adhere flowers, foliage and accessories to the platform with liquid floral adhesive.

## blossoming elegance

To create personalized looks, try this floral headband technique. Wrapping the bands with ribbon allows you to customize them to complement customers' dresses beyond the selected flowers. For an even bolder look, offer a selection of floral rings, simply created by gluing flowers onto floral rings. Both of these design options give your customers unique looks designed just for them. **sf**
